

Mobile Development Studio

Easily develop applications and workflows with little to no coding using RFgen's built-in low-code mobile development tool.

Take Control of Your Digital Destiny

When you need to iterate mobile software quickly and at minimal cost, RFgen is the ideal solution. RFgen Mobile Development Studio puts you in the driver's seat, empowering your technical staff with self-sufficiency and control to shape your mobile solution exactly the way you want. Leverage this built-in low-code mobile app development environment to rapidly create engaging user experiences through modern design concepts. Build, modify, deploy, manage, and remotely support mobile apps without interrupting your business processes. Give your organization a competitive edge with freedom and ownership over the future of your mobile solution.

Why RFgen Mobile Development Studio:

Lower Development Cost

Augment your teams with up to 95% faster app development lifecycles.

100% Configurable

Low-code and visual drag-and-drop enable easy design of your applications.

Reduce Burden on IT

Simplify maintenance for your technical team with greater agility and control.

Freedom to Innovate

Create custom workflows for unique processes and cloud-based ERP systems.

Features & Capabilities

RFgen Mobile Development Studio makes intuitive cross-platform mobile apps a reality, helping your organization unlock new levels of efficiency and agility. Integrate modern mobile interactivity concepts into your applications along with the latest in data collection best practices. Mobile Development Studio is easy to learn and use. Simple scripting and a customizable low-code paradigm enable even junior technical users to configure mobile apps without specialized programming knowledge.

- ▶ **Design Once, Deploy Everywhere**
Create mobile apps once and quickly deploy across multiple operating systems, devices, and form factors.
- ▶ **Modern UI/UX**
Design intuitive touch-friendly apps that fulfill the expectations of the modern mobile user, increasing productivity and user adoption.
- ▶ **Prebuilt Starting Points**
Customize ERP-specific app templates and adapt them to your individual needs using configurable pre-made logic blocks.
- ▶ **Responsive Auto-Scaling**
Quickly scale apps to different screen sizes with responsive design while preserving proportionality
- ▶ **Visual Designer Tools**
Utilize advanced themes, drag-and-drop elements, and reusable components to create compelling UI/UX.

"With the flexibility and control we now have with RFgen's Mobile Development Studio, we can quickly and efficiently create mobile apps in-house that are specifically tailored to our needs."

Dean Thomas
IT Director, Phase Technology

- ▷ **True-to-Life Emulation**
Live device emulator enables real-time visualization and testing of apps built to exact device specifications.
- ▷ **Multi-Language**
Translate apps into different languages with one click using embedded Google Translate.
- ▷ **Technology Integration**
Enhance functionality with barcode scanning, photo imaging, GPS, Google Maps, IoT, and more.

Your Apps. Your Way.

Don't get locked in by your mobile software. With RFgen, you get exactly the functionality you need in record time while maintaining the highest level of security. Take full control over the future of your mobile solution or leverage our extensive expertise to help you fulfill your unique digital vision.

RFgen Software - Your Total Solution Provider

Software. Hardware. Services. Expertise.

Since 1983, RFgen has helped organizations reduce supply chain costs through increased accuracy and efficiency with the most reliable, flexible mobile barcoding solutions in the industry. Our global network offers worldwide support for complete end-to-end visibility through data collection. RFgen provides robust mobile software and hardware, as well as guidance and expertise based on decades of experience and best practices.

RFgen is Already Used Worldwide For:

- ▷ Warehouse and Distribution Centers
- ▷ Manufacturing and Production
- ▷ MRO and Asset Management
- ▷ Field Service and Delivery

1101 Investment Blvd, Suite 250 | El Dorado Hills | CA 95762
