RFgen

Mobile Edge™ for Oracle ERPs

Extend and enhance your supply chain with mobile barcoding and data collection for Oracle Cloud, JD Edwards, and E-Business Suite.

Mobilize Your Oracle Supply Chain

RFgen Mobile Foundations is the industry-leading mobile barcoding solution for Oracle Cloud, JD Edwards, and E-Business Suite. RFgen's architecture provides built-in best practices for mobile inventory management with unparalleled security, speed, and flexibility to maximize performance and minimize waste. Lightning-fast mobile apps bring the power of your ERP to wherever your people work, online or offline, in the warehouse or in the field.

KEY ADVANTAGES:

Oracle-Certified & Validated Integrations

Oracle SCM Cloud Release 11 and above. E-Business Suite i11 to R12. JD Edwards EnterpriseOne XE to 9.2. Validated for JD Edwards World A7.3 to A9.4.

Maximum Data & Device Security

Leverage the highest level of security for your mobile data collection with support for single sign-on (SSO), SSL encryption, offline safeguards, and more.

Fast Mobile App Development

RFgen Mobile Development Studio provides built-in low-code mobile app development for rapid in-house creation and tailoring to enhance and augment core ERP capabilities.

RFgen Features & Capabilities

RFgen Mobile Foundations for Oracle can help you unlock new levels of performance, control, and oversight for critical supply chain operations. Mobile apps provide two-way data exchange with Oracle Cloud, JD Edwards, E-Business Suite, and other business systems in real time. Configure pre-built mobile apps for your business or create your own using mobile app templates and low-code developer tools.

▷ **Transaction Automation**
Replace manual inventory practices with real-time digital automation and 30% more efficiency.

▷ **Workforce Mobilization**
Increase productivity by 30% by bringing end-users to point-of-work, reducing wait and walk time.

▷ **Automatic Data Collection**
Drive inventory accuracy to 99.9% and above with world-class mobile barcoding technology.

▷ **Easy to Manage**
Deploy, manage, and support remotely. Device-agnostic software runs on Android, iOS, and Windows.

▷ **Off-network Mobility**
Industry's best offline data collection solutions for 365/24/7 operations.

"RFgen is the easiest software to use. We went from idea to reality in less than a week. Prior to RFgen, those ideas remained in fantasyland. It's easy to implement, scalable, and updates in real time."

Kenny Frachiseur, Program Manager, Arquest
