This application is used to inquire the sales order line details.

Workflow Documentation
2022

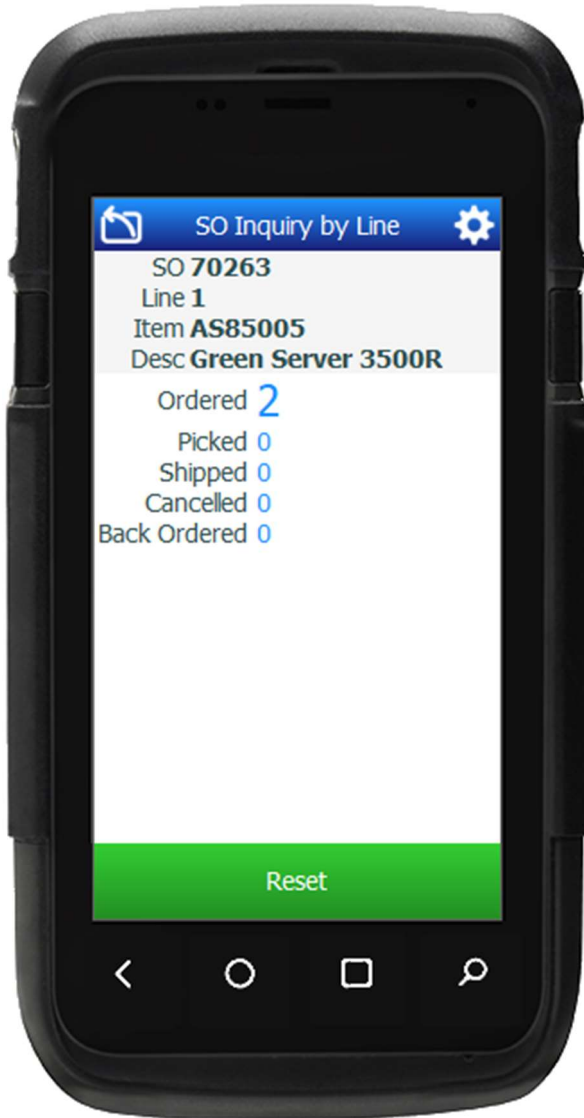

RFgen provides its customers Oracle-validated, ready-to-use suites of SCM Cloud applications. This document describes the business workflow used in this application.

Oracle SCM Cloud OM – Sales Order Inquiry Workflow

OM – SO Inquiry by Line

This application is used to inquire the sales order line details.

Workflow Description

First the user scans, enters or searches the Sales Order.

Next, the user scans, enters or searches the line number against the sales order.

The Reset and Search buttons display.

Next, the user taps the **Search** button, and the details for the Sales Order displays:

- Customer
- Shipping Address
- Item
- Ordered Quantity
- Picked Quantity
- Shipped Quantity
- Back Ordered Quantity
- Cancelled Quantity

The user taps the **Reset** button to reset the form, and the cursor goes back to the sales order field.

The arrow in the upper left corner takes the user to the menu.
